Intellectual Property Rights

IPRs essential or potentially essential to the present document may have been declared to ETSI. The information pertaining to these essential IPRs, if any, is publicly available for **ETSI members and non-members**, and can be found in ETSI SR 000 314: "Intellectual Property Rights (IPRs); Essential, or potentially Essential, IPRs notified to ETSI in respect of ETSI standards", which is available from the ETSI Secretariat. Latest updates are available on the ETSI Web server (http://webapp.etsi.org/IPR/home.asp).

Pursuant to the ETSI IPR Policy, no investigation, including IPR searches, has been carried out by ETSI. No guarantee can be given as to the existence of other IPRs not referenced in ETSI SR 000 314 (or the updates on the ETSI Web server) which are, or may be, or may become, essential to the present document.

Foreword

This ETSI Standard (ES) has been produced by ETSI Technical Committee Telecommunications and Internet converged Services and Protocols for Advanced Networking (TISPAN).

1 Scope

The present document provides the ETSI TISPAN endorsement of the 3GPP TS 29.332 [1] "3rd Generation Partnership Project; Technical Specification Group Core Network and Terminals; Media Gateway Control Function (MGCF) - IM Media Gateway; Mn Interface (Release 7)".

The present document provides the necessary adaptations to the above specification, in order to comply with the requirements of TISPAN NGN Release 2.

2 References

References are either specific (identified by date of publication and/or edition number or version number) or non-specific.

- For a specific reference, subsequent revisions do not apply.
- Non-specific reference may be made only to a complete document or a part thereof and only in the following cases:
 - if it is accepted that it will be possible to use all future changes of the referenced document for the purposes of the referring document;
 - for informative references.

Referenced documents which are not found to be publicly available in the expected location might be found at http://docbox.etsi.org/Reference.

NOTE: While any hyperlinks included in this clause were valid at the time of publication ETSI cannot guarantee their long term validity.

2.1 Normative references

The following referenced documents are indispensable for the application of the present document. For dated references, only the edition cited applies. For non-specific references, the latest edition of the referenced document (including any amendments) applies.

[1] 3GPP TS 29.332: "3rd Generation Partnership Project; Technical Specification Group Core Network and Terminals; Media Gateway Control Function (MGCF) - IM Media Gateway; Mn Interface (Release 7)".

2.2 Informative references

The following referenced documents are not essential to the use of the present document but they assist the user with regard to a particular subject area. For non-specific references, the latest version of the referenced document (including any amendments) applies.

[i.1] ETSI ES 283 024: "Telecommunications and Internet converged Services and Protocols for Advanced Networking (TISPAN); H.248 Profile for controlling Trunking Media Gateways; Protocol specification".

Endorsement notice

The present document endorses 3GPP TS 29.332 "Media Gateway Control Function (MGCF) - IM Media Gateway; Mn Interface (Release 7) [1], the contents of which apply together with the addition of the modifications being covered herein.

Global modifications to 3GPP TS 29.332

NOTE: When making modifications to the endorsed document's original text [1], strikethrough text means deleted text and underlined text means inserted text. If there has been underlined text in the endorsed document's original text [1], the underlining has been removed for the sake of clarity.

Throughout the text of 3GPP TS 29.332

17 Transactions towards BICC

For the purpose of the present document clause 17 of [1] is not applicable.

Annex A (Normative): Profile Description

A.3 Gateway Control Protocol Version

For the purpose of the present document the text of clause A.3 of [1] is replaced by the modified text as shown below.

The Profile conforms to the Profile Template as specified in ITU-T Recommendation H.248.1 Version 3 Appendix III. The value ALL specified in the template is according to ITU-T Recommendation H.248.1 Version 2 [9].

A.5 Context Attributes

For the purpose of the present document the text of clause A.5 of [1] is replaced by the modified text as shown below.

Table A.5: Context attributes

Context Attribute	Supported	Values Supported		
Topology	Optional	All		
Priority Indicator	Yes 0-15			
Emergency Indicator	Yes	Not Applicable		
AND/OR Context Attribute	No Not applicable			
NOTE 1: The "Topology" attribute is optional for example support of monitoring. If requested and not				

NOTE 1: The "Topology" attribute is optional for example support of monitoring. If requested and not supported error code 444 shall be returned.

NOTE 2: AND/OR Context Attribute is for ITU-T Recommendation H.248.1 Version 3 only, so it does not apply to ETSI TISPAN Profile but the entry is kept to maintain the template layout.

A.7.9 Error Descriptor

For the purpose of the present document clause A.7.9 is replaced by the modified clause as shown below.

Table A.7.9/1: Error Codes Sent by MGCF

Supported H.248.8 Error Codes:	FFS < list of individual numbers>
Supported Error Codes defined in packages:	All error codes defined in supported packages shall be
	supported.

Table A.7.9/2: Error Codes Sent by MGW

Supported H.248.8 Error Codes:	FFS< list of individual numbers> ALL with exception of:
	#460 "Unable to set statistic on stream"
	#518 "Event buffer full".
	#519 "Out of space to store digit map".
	#520 "Digit Map undefined in the MG"-
Supported Error Codes defined in packages:	All error codes defined in supported packages shall be
	supported.

A.10 Transactions

For the purpose of the present document the text of clause A.10 of [1] is replaced by the modified text as shown below.

Table A.10/1: Transactions per Message

Maximum number of TransactionRequests / TransactionReplies / TransResponseAcks / Segment Replies per message:	2 (NOTE 1) 10 (NOTE 2)
NOTE 1: Maximum required by TISPAN NGN R2 NOTE 2: Maximum required by 3GPP	

Table A.10/2: Commands per Transaction Requests

Maximum number of commands per Transaction	2_(NOTE_1)
request:	Unspecified (NOTE 2)
NOTE_1: Maximum required by TISPAN NGN R2	
NOTE_2: Maximum required by 3GPP	

Table A.10/3: Commands per Transaction Reply

Maximum number of commands per Transaction reply:	2 (NOTE_1) Unspecified (NOTE 2)
NOTE_1: Maximum required by TISPAN NGN R2	
NOTE 2: Not specified by 3GPP	

Table A.10/4: Optional Commands

Commands able to be marked "Optional":	AuditValue
Communication abilities to be marked optional.	/ tadit value

Table A.10/5: Transaction Timers

Transaction Timer:	Value
normalMGExecutionTime	Provisioned, changeable with Base Root Package
	(clause A.14.2)
normalMGCExecutionTime	Provisioned, changeable with Base Root Package
	(clause A.14.2)
MGOriginatedPendingLimit	Provisioned, changeable with Base Root Package
	(clause A.14.2)
MGCOriginatedPendingLimit	Provisioned, changeable with Base Root Package
	(clause A.14.2)
MGProvisionalResponseTimerValue	Provisioned, changeable with Base Root Package
	(clause A.14.2)
MGCProvisionalResponseTimerValue	Provisioned, changeable with Base Root Package
	(clause A.14.2)

A.14 Packages

For the purpose of the present document the text of clauses A.14.3, A.14.4, A.14.9, A.14.10, A.14.12, A.14.14, A.14.15, A.14.16, A.14.17, A.14.18, A.14.19, A.14.20 is not applicable.

Annex ZA (informative): Comparison with ES 283 024 (H.248 TGW Profile for TISPAN R1)

Table ZA.1 provides an overview of the differences between the present document and ES $283\ 024\ [i.1]\ (V1.1.4)\ (TGW\ R1).$

Table ZA.1: Differences between the present document and ES 283 024 [i.1]

Topic	ES 283 049 (TGW R2)	ES 283 024 [i.1] (TGW R1)
X.1 Profile name	threegimscsiw	etsi_tgw
-version	2	1
X.8.4 Move Command	Optional	Not required
X.8.8 ServiceChange	900-910, 913-917	900-908, 910-917
reasons sent by MGW		
X.8.9 Context Attributes	Topology (Optional), Emergency,	Topology (Optional)
Manipulated:	Priority	
Packages		
Generic Package v1	Mandatory	Optional
	Events: Cause, Signal Completion	Events: Signal Completion
	Signal Completion used in commands	Signal Completion used in command
	ADD, MOD, MOVE, NOTIFY	NOTIFY
TDM Circuit Package v1	Mandatory	Mandatory
	Echo Cancellation used in commands	Echo Cancellation used in commands
	ADD, MOD, MOVE	ADD, MOD
	Echo Cancellation provisioned Value:	Echo Cancellation provisioned Value:
	Default= Off (False)	-
Basic Continuity Package	Mandatory	Mandatory
v1	Continuity Test used in commands	Continuity Test used in commands
	ADD, MOD, MOVE	ADD, MOD
	Completion used in commands	Completion used in command
	ADD, MOD, MOVE, NOTIFY	NOTIFY
Call Progress Tones	Optional	Optional
Generator Package v1	Tones used in commands:	Tones used in command:
	ADD, MOD, MOVE	MOD
Generic Announcement	Optional	Optional
Package v1	Mandatory Signal Parameters:	Mandatory Signal Parameters:
	Announcement name	Announcement name
	Number Of Cycles	
DTD D	Announcement Direction	0.0
RTP Package v1	Optional	Optional
	Events	Events
	Payload Transition	None

Annex A (informative): Change history
