Foreword

This ETSI Technical Report (ETR) has been produced by the Special Mobile Group (SMG) Technical Committee (TC) of the European Telecommunications Standards Institute (ETSI). This ETR describes the abbreviations and acronyms used within the European Telecommunication Standards (ETSs) related to the European digital cellular telecommunications system (Phase 2).

This ETR is an informative document resulting from SMG studies which are related to the European digital cellular telecommunications system (Phase 2). This ETR is used to publish material which is of an informative nature, relating to the use or the application of ETSs and is not suitable for formal adoption as an ETS.

This ETR corresponds to GSM technical specification, GSM 01.04, Phase 2, version 4.1.1.

The specification from which this ETR has been derived was originally based on CEPT documentation, hence the presentation of this ETR may not be entirely in accordance with the ETSI/PNE rules.

Reference is made within this ETR to GSM Technical Specifications (GSM-TS) (NOTE).

NOTE: TC-SMG has produced documents which give the technical specifications for the implementation of the European digital cellular telecommunications system. Historically, these documents have been identified as GSM Technical Specifications (GSM-TS). These TSs may have subsequently become I-ETSs (Phase 1), or ETSs (Phase 2), whilst others may become ETSI Technical Reports (ETRs). GSM-TSs are, for editorial reasons, still referred to in current GSM ETSs.

Introduction

This ETR consists primarily of those acronyms and abbreviations that are considered essential to the understanding and application of the principles of a GSM PLMN.

Blank page

1 Scope

This ETR provides the abbreviations and acronyms to be used throughout the GSM specifications.

All abbreviations are presented in the singular, but are equally applicable to the plural.

2 References

This ETR has no normative references.

3 Abbreviations and acronyms

А	
A3	Authentication algorithm A3
A5/1	Encryption algorithm A5/1
A5/2	Encryption algorithm A5/2
A5/X	Encryption algorithm A5/0-7
A8	Ciphering key generating algorithm A8
AB	Access Burst
AC	- Access Class (C0 to C15)
	- Application Context
ACC	Automatic Congestion Control
ACCH	Associated Control CHannel
ACK	ACKnowledgement
ACM	 Accumulated Call Meter
	 Address Complete Message
ACU	Antenna Combining Unit
ADC	- ADministration Centre
	- Analogue to Digital Converter
ADN	Abbreviated Dialling Number
ADPCM	Adaptive Differential Pulse Code Modulation
AE	Application Entity
AEC AEF	Acoustic Echo Control
AGCH	Additional Elementary Functions Access Grant CHannel
Ai	Action indicator
AoCC	Advice of Charge Charging supplementary service
AoCl	Advice of Charge Information supplementary service
ASE	Application Service Element
ASN.1	Abstract Syntax Notation One
ARFCN	Absolute Radio Frequency Channel Number
ARQ	Automatic ReQuest for retransmission
ATT (flag)	ATTach
AU	Access Unit
AuC	Authentication Centre
AUT(H)	AUThentication
R	

В

BA	BCCH Allocation
BAIC	Barring of All Incoming Calls supplementary service
BAOC	Barring of All Outgoing Calls supplementary service
BCC	Base Transceiver Station (BTS) Colour Code
BCCH	Broadcast Control CHannel
BCD	Binary Coded Decimal
BCF	Base station Control Function
BCIE	Bearer Capability Information Element
BER	Bit Error Rate
BFI	Bad Frame Indication
BI	all Barring of Incoming call supplementary services
BI	all Barring of Incoming call supplementary services

Page 8 ETR 100: November 1994 (GSM 01.04 version: 4.1.0)

BIC-Roam	Barring of Incoming Calls when Roaming outside the home PLMN country supplementary service
Bm	Full-rate traffic channel
BN	Bit Number
во	all Barring of Outgoing call supplementary services
BOIC	Barring of Outgoing International Calls supplementary service
BOIC-exHC	Barring of Outgoing International Calls except those directed to the Home
	PLMN Country supplementary service
BS	- Basic Service (group)
	- Bearer Service
BSG	Basic Service Group
BSC	Base Station Controller
BSIC	Base transceiver Station Identity Code
BSIC-NCELL	BSIC of an adjacent cell
BSS	Base Station System
BSSAP	Base Station System Application Part
BSSMAP	Base Station System Management Application Part
BSSOMAP	Base Station System Operation and Maintenance Application Part
BTS	Base Transceiver Station
