Foreword

As a result of extensions and amendments to this and other Interim European Telecommunication Standards (I-ETS) by Technical Committee Special Mobile Group (TC-SMG) it has become necessary to introduce additional parts to the concerned I-ETSs. Where additional parts to an I-ETS have been introduced the base standards are now identified by the additional wording "Part 1: Generic" in the title and the I-ETS number is followed by "-1".

Part 2 of I-ETS 300 044 describes the DCS 1800 extension of the Mobile Application Part (MAP). This I-ETS is identified by additional wording in the title and by the I-ETS number, I-ETS 300 044-2. For the sake of conformity and alignment with the additional part of I-ETS 300 044 this corrigendum changes the title page of I-ETS 300 044 to that shown on the unmarked page 5 of this corrigendum.

NOTE: For convenience, page 5 of this corrigendum has no page number or header.
