Foreword

This amendment to ETS 300 092-1 (1992) has been produced by the Signalling Protocols and Switching (SPS) Technical Committee of the European Telecommunications Standards Institute (ETSI).

This amendment contains changes to clause 11 of ETS 300 092-1 (1992) to clarify the treatment of the Calling party subaddress information element in the case of interworking with other (non-ISDN) networks.

Amendments

Page 16, clause 11, third (penultimate) paragraph

Delete: "In this case the ISDN shall follow the procedures specified in clause 9.5."

Replace with:

"In this case the network shall, depending upon the indication received, either:

- for presentation allowed, send the calling party number information element according to the contents of subclause 9.5.1, second paragraph, and shall include the calling party subaddress information element if the calling party subaddress is available; or,
- for presentation restricted, send the calling party number information element according to the contents of subclause 9.5.1, fourth paragraph, and shall not include the calling party subaddress information element."
