1 Scope

This European Telecommunication Standard (ETS) specifies the Profile Test Specification (PTS) summary referencing all the documents necessary for the conformance testing of the Digital Enhanced Cordless Telecommunications/Global System for Mobile communications (DECT/GSM) Interworking Profile (IWP) as specified in ETS 300 370 [11].

This ETS together with the references in clause 2 constitute the DECT/GSM IWP PTS.

This ETS has the following structure:

- clause 4 contains general information relative to the profile including references to the related standards;
- clause 5 contains a summary and references to the standards relevant for each of DECT protocol layers to be tested.

2 Normative references

This ETS incorporates, by dated or undated reference, provisions from other publications. These normative references are cited at the appropriate places in the text and the publications are listed hereafter. For dated references, subsequent amendments to, or revisions of, any of these publications apply to this ETS only when incorporated in it by amendment or revision.
