

How to buy a code?

The administrative charge is €200 for each code ordered (VAT excluded). Payment can be done with the following methods:

- ✓ by credit card accepted by a payment service when the request is made online via the [ETSI WEBstore](#);
- ✓ by wire transfer to the bank account as designated in ETSI's invoice within thirty (30) days after issuing of the said invoice by ETSI. Please contact us (algorithms@etsi.org) to obtain the proforma invoice.

IMPORTANT: If you require an invoice with your PO number, please send us this information as soon as possible in order to speed up the process.

For a faster service, we recommend a payment via [ETSI WEBstore](#).

Once the payment is received, the "CRUU web form" will be digitally countersigned by a duly authorized ETSI representative. You will then receive an e-mail from "Adobe Sign" with the CRUU web form containing the code(s) on the final page.

Thank you for your attention. Any further questions?
