

2023 FINANCIAL CONTRIBUTIONS AND FEES TO ETSI

The cost of the **first unit** of contribution amounts to: **€6 000** (except for universities, public research bodies, not-for-profit user associations and Micro-Enterprises)

The cost of the **subsequent units** amounts to: **€3 380**

MEMBERS' CONTRIBUTIONS are calculated by class derived from the member company's annual ECRT (Electronics Communications Related Turnover). Each class corresponds to a number of units of contribution determining the annual contribution payable and the voting weight.

Administrations: the class of contribution is determined by the Gross Domestic Product of their country. The number of units of contribution is calculated according to Article 2.1 of Annex 2 of the ETSI Rules of Procedure.						
3GPP participation is subject to a minimum contribution of 3 units, except for SMEs, Micro-Enterprises, not-for-profit user and trade associations, universities and OGBs and public research bodies who are required to pay a minimum of 2 units. These minimum contribution levels need not apply where an organization with more than one membership (i.e., subsidiaries of a Corporate Group, or Other Governmental Bodies (OGBs) linked to an Administration) makes an overall contribution that exceeds 20k€ multiplied by the number of 3GPP memberships held by the organization.						
oneM2M participation is covered by the ETSI Member contribution.						

* The above contributions and fees are VAT excluded. They are calculated according to the 2023 budget as approved by the 80th General Assembly. The detailed provisions for the selection of the class of contribution may be found in Annex 2 of the ETSI Rules of Procedure.
