- Enhance your organization's visibility
- Play a leadership role among experts
- Network with peers and industry leaders
- Meet with your customers and competitors in a neutral and informal environment

**FOR AWARENESS & EDUCATION**
- Get early access to the insights of emerging standards
- Gain insight into European Regulations
- Discover how standardization can help your business
- Benefit from many diverse technical activities
- Gain expertise in valuable standard developments

## WHO
### joins ETSI?

Our Membership comprises a diversified pool of large and small private companies, research entities, academia, government and public organizations who wish to participate in the agenda setting of evolving technologies.

SMEs participate happily alongside the large ICT companies from around the world.

Universities and research bodies increasingly find themselves in good company within ETSI.

Companies and organizations from all over the world (currently more than 60 countries from all continents) shape our global community.

**ETSI**
**The Standards People**

## WHAT
### does it cost?

Membership requires an annual contribution, determined by the size and nature of the member company or organization and, in the case of large companies, by their financial performance. Special, reduced rates are available to SMEs, Micro Enterprises, universities, public research bodies… starting at just €2 100 per year.

Whatever they pay, all of our members have equal rights of direct participation in our standards-making activities.

Our working methods are designed to minimize costs and maximize efficiency.

## HOW
### to contact ETSI?

## ETSI AND SUSTAINABILITY

ETSI has implemented efficient electronic working tools with remote participation in the technical activities increasing each month.
Whether you are on the other side of the world or engrossed in your core business, access to ETSI resources and meetings is always possible, you don't need to miss a thing.
ETSI also has a constant commitment to energy saving and appropriate use of recoverable resources.

## ABOUT ETSI

ETSI is one of only three bodies officially recognized by the European Union as a European Standards Organisation (ESO). It is an independent, not-for-profit body dedicated to ICT standardization. With over 900 member organizations from more than 60 countries across five continents, ETSI offers an open and inclusive environment for members representing large and small private companies, research institutions, academia, governments, and public organizations. ETSI supports the timely development, ratification, and testing of globally applicable standards for ICT enabled systems, applications, and services across all sectors of industry and society.
